SKILLS

- HTML
- JavaScript
- MySQL
- CSS
- PHP
- Bootstrap

INTERNSHIP

Webburner, Daman   Jun 2022 - Jul 2022

Web Development

PROJECTS

Blood Bank Management System

The project consists of a central repository containing various blood deposits available along with associated details. These details include blood type, storage area, and date of storage. These details help in maintaining and monitoring the blood deposits. The project is an online system that allows to check whether required blood deposits of a particular group are available in the blood bank. Moreover, the system also has added features such as patient names and contacts, blood booking, and even the need for certain blood groups to be posted on the website to find available donors for a blood emergency. This online system is developed on a PHP platform and supported by a MySQL database to store blood and user-specific details.

Tic Tac Toe

The Tic Tac Toe game is a game for two players, called X & O, who take turns marking the spaces in a 3×3 grid. The player who succeeded in placing three respective marks in a horizontal, vertical, or diagonal row wins the game. (Html, Css, JavaScript)

My Personal Portfolio

URL: https://sindhaali.github.io/

This is a fully responsive personal portfolio website for which I have used Bootstrap 4 code. In addition, common HTML and CSS programming codes have been used. It is designed in a completely modern way.
